Microscopic diagnosis.--The State Boards of Health have now had so much experience in the microscopic diagnosis of intestinal worms, that it is only in exceptional cases that specimens are referred by them to me. Field work.--The greater part of my time this past year has been given up to certain field studies in County Z. and in County X. The results of the work is County Z. are now nearly ready for publication, and will soon be issued. One entire month was spent in campaigning certain counties in two states in the interest of better sanitation. Investigations.--Of the various investigations under way, or recently published, it is desired to report formally at present only the following: (a) A Test to Determine Fecal Contamination of Food.--For some time past, I have not been able to escape the conviction that...
