

Red phosphors for W-LED applications

Filesize: 2.24 MB

Reviews

*Comprehensive manual! Its this sort of excellent read through. We have read through and i also am certain that i will going to read through once more again later on. You wont sense monotony at at any time of your time (that's what catalogs are for regarding in the event you question me).

RED PHOSPHORS FOR W-LED APPLICATIONS

DOWNLOAD

GRIN Verlag Okt 2015, 2015. Taschenbuch. Book Condition: Neu. 210x148x2 mm. This item is printed on demand - Print on Demand Titel. Neuware - Project Report from the year 2015 in the subject Physics - Optics, ST Anne's College Of Engineering And Technology (St. Anne's College of Engineering and Technology, Panruti, Tamilnadu, India), language: English, abstract: Trivalent rare-earth-ion-activated molybdate based phosphors have attracted great attention for solid-state lighting applications by virtue of their long lifetimes, and efficient luminescence property. The rare-earth ions are represented by a partly filled 4f shell that is completely shielded by 5s² and 5p⁶ orbitals. Therefore, emission transitions provide sharp intense lines in the optical spectra [1, 2]. The use of rare-earth element-based phosphor, based on "line-type" f-f transitions, can narrow the emissions to the visible range, resulting in high efficiency and a high-lumen equivalence. In recent years, a flourishing care is concentrated on Li₃Ba₂Gd_{3-x}(MoO₄)₈ host matrix for luminescent ions in the interest of their excellent chemical and thermal stability and favourable luminescence characteristics compared to the sulfide- and nitride-based materials. Moreover, these are environmentally friendly as no toxic gases like sulphide are given out. Li₃Ba₂Gd_{3-x}(MoO₄)₈ occur in monoclinic crystal system with space group C_{2/c} in a disordered structure [3]. For this research paper, a series of Li₃Ba₂Gd_{3-x}Pr_x (MoO₄)₈ (x = 0.01, 0.03, 0.05, 0.07 and 0.09 mol) and Li₃Ba₂Gd_{3-x}Sm_x (MoO₄)₈ (x = 0.02, 0.04, 0.06, 0.08 and 0.10 mol) red phosphors were synthesized by conventional solid state reaction method. 24 pp. Englisch.
