Alphascript Publishing Jan 2010, 2010. Taschenbuch. Book Condition: Neu. 220x150x5 mm. Neuware - The Ford Taurus is an automobile manufactured by the Ford Motor Company in the United States. Originally introduced in the 1986 model year, it has remained in near continuous production for more than two decades, making it the fourth oldest nameplate that is currently sold in the North American Ford lineup. It has had a more upscale Mercury branded version entitled the Sable (1986-2005; 2008-2009), as well as a performance variant, the Ford Taurus SHO (1989-1999 and 2010-). It was a front-wheel drive mid-size car during its first production run, and it is now a full-size car available in front- or all-wheel drive. The original Taurus was a milestone design for Ford and the entire American automotive industry, as well as a very influential vehicle that brought many new features and innovations to the marketplace. Since its launch in 1986, Ford has built 7,519,919 Tauruses through the 2007 model year, making it the fifth best selling North American nameplate in Ford's history; only the F-150, Escort,[5] Model T, and Mustang have sold more units. Between 1992 and 1996, the Taurus was the best-selling car in the United States, eventually losing the title to the Toyota Camry in 1997. 80 pp. Englisch.
